Cyprus remains a leader amongst international tax planning jurisdictions. Thousands of Cyprus companies are formed each year by foreign investors, exceeding that of any financial center in Europe. Cyprus combines a convenient location amongst three continents, low tax rates, financial stability and credibility as well as a wide network of international treaties for the avoidance of double taxation.

European Member State

Cyprus has been a full member of the European Union since May 2004 and member of the Eurozone, fully adopting the Euro as its currency since 2008. Cyprus-based businesses have full access to EU markets with all the privileges this entails.

The Cyprus Investment Programme

In recent years, the Cyprus Investment Programme (CIP) has become, available to investors in Cyprus by Exception pursuant to the Decision of the Council of Ministers dated 13th September 2016, as amended in May 2018 issued as per Article 111A(2) of the Civil Registry Law 2002, of the Republic of Cyprus (the “Law”).

Recent revisions to the Programme have made it one of the most attractive globally. By virtue of this Law, the Council of Ministers of Cyprus may grant citizenship by naturalisation to foreign entrepreneurs who decide to invest in Cyprus. Additionally, the Law provides for the granting of Cypriot citizenship to the spouse, children as well as parents of the investor on the basis of the CIP.

Tax Benefits

Cyprus is consistently ranked as the most attractive European tax regime by major business organizations and tax professionals across Europe. Cyprus has been commended for the stability of its tax law, the consistency in interpreting its tax legislation, its low tax rates, and its extensive network of highly favorable double tax treaties.

The Cyprus holding company regime is widely acknowledged as one of the most favorable in Europe.

Infrastructure Benefits

Cyprus maintains a highly professional workforce to provide support to international business. The accounting, legal and banking sectors are well developed with excellent telecommunication facilities. The island enjoys a high standard of living, within a stable and safe environment.

Legal System

Cyprus has a well-functioning legal system based on principles of common law and equity established through historical links with the United Kingdom.

The origins of Cyprus company law and other laws regulating business are traced back to the laws of the UK, updated for 21st century business practice and harmonized with European Directives.

The familiarity of the legal and commercial systems assists international business people in working within the Cypriot commercial environment. English is spoken universally and is the accepted language of business.
